About Us

A Research Publication Platform for the Digital Age

Scienchar started with a noble effort to help the researchers in their work and also share knowledge and research ideas. All research interested scholars are given best opportunity to make the world aware of their work.

KPG SCIENCHAR

We serve scholars from around the world to ensure the latest research is freely available and easily accessible.

Scienchar's commitment to open access is based on the view that an unhindered access to research is essential for the rapid, efficient communication and development of science.

We aim to cover the latest and outstanding development in the field of science

Scienchar's open access policy means that all publications are freely and universally accessible online, authors retain copyright to their work, and all publications are deposited in various open access and digital archives.

There are no access barriers instead, there is a unique viewing remuneration given to the author as well as to the reader so as to promote research, which is paid from the Scienchar's funds.

Anyone can access or download any article from the website, free of cost.

Scienchar Partnership

Scienchar is a digital library of KPG which provides access to all the research articles or scholarly work published on Scienchar.

We help Scientific Publishers and Conference Organizers in publishing the accepted papers, in fully web searchable format without worrying about setting up the digital infrastructure.
